JOÃO PEREIRA

FULL-STACK SOFTWARE ENGINEER

Porto, Portugal | joao.costa.20@hotmail.com | GitHub | LinkedIn | Portfolio

PROFESSIONAL EXPERIENCE

FULL-STACK SOFTWARE ENGINEER Feb 2025 - Jul 2026

Its Possible Tech | Porto, Portugal | Curricular Internship, promoted to Junior Full-Stack Engineer after 5 months

- Built web products with React, Next.js and Node.js in a small team, and worked directly with clients to turn their requirements into technical specs.
- Took Condomind, my main project and a multi-tenant SaaS for condominium management, from the first line of code to production with real clients, building the frontend, the backend and its REST APIs on PostgreSQL and MongoDB.
- Owned Condomind's AWS infrastructure: login with Cognito, images served from S3 through CloudFront, frontend on Amplify, backend and microservices on EC2, domains in Route 53, emails with SES, and CloudWatch alarms to watch production.
- Kept the code reliable with Git Flow, code reviews and CI pipelines running tests, linting and type checks.

SOFTWARE ENGINEER, SUMMER INTERNSHIP Jun 2024 - Aug 2024

INESC TEC | Porto, Portugal

- Developed a Virtual Reality (VR) MVP in Unity for wind turbine engineers, enabling virtual inspection of motors and components.
- Implemented model loading, component manipulation, and inspection of individual parts.

MORE PROJECTS

- **AI Chat Assistant:** RAG chatbot for Condomind using FastAPI, OpenAI APIs, and vector search.
- **2Bike:** E-commerce platform for a bicycle retailer, with product management and checkout.
- **Payment Gateway Microservice:** Payment microservice developed in partnership with SIBS, supporting MB WAY, card, and Multibanco reference payments.
